DETAILED ACTION

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the indicator portion that indicates what frame of the panoramic image must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement-drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the examiner does not accept the changes, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Max Moskowitz (30,576) on 19 October 2006.

In the claims:

In claim 12, line 19, add **"in a display area containing the image"** after **"indicator"** and before **"on the display panel"**

In claim 14, line 21, add **"in a display area containing the image"** after **"indicator"** and before **"to show which part"**

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The combination of features is not found in the prior art. Firstly, having a superimposed position indicator located longitudinally on the screen that indicates frame as well as overall position is not common to the document arts or another area and is not particularly found there.

Next, the feature of the camera automatically sorting the images based on their aspect ratio and tying a set of frames together as a panoramic image was not that common at the date of filing.

Those two features together are non-obvious and therefore novel.

Art Unit: 2628

The closest known prior art not of record that has been found is US 6,720,987, which teaches the display of a particular image and a separate panoramic image display area with a rectangular indicia upon it indicating position, but this does not display frame position and/or the like, thusly not supporting a holding of obviousness.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric Woods whose telephone number is 571-272-7775. The examiner can normally be reached on M-F 7:30-5:00.
